

Business Innovation Partners. Co. Ltd. (BIPC)

BIO-BASED MATERIAL R&D PRODUCTION CENTER

OUR STRENGTHS:

- ✓ Use plant-derived polymer components extracted from trees, bamboo, grass and other natural resources.
- ✓ Our material degrades in the environment much faster than oil-based material.
- ✓ Can be used in wide various application from plastic packaging, semiconductor device, to cosmetic and medical industries.

Bio-based Material R&D and Production

- ✓ Solution to recent global warming and marine pollution problems!
- ✓ Contribute to the reduction of CO2 emission!
