

EBARA JITSUGYO CO., LTD.

Development of surface treatment technology for various materials

For more than 30 years, Ebara Jitsugyo Co., Ltd., Measuring Instruments and Medical Division, has been developing, manufacturing, and handling ozone monitors and other related equipment using ozone and ultraviolet rays, such as air purifiers for hospitals and surface treatment equipment. By applying these related technologies, we will work on the development of surface treatment technologies and applications for various materials.
